

Dynamic Ratings, part of the Wilson Transformer Group of Companies, is an industry leader in the development and supply of transformer monitoring, control and communication systems.

It is a time of investment for the future through market and product development initiatives. With strong exports, significant support within global markets and expanding growth opportunities, two new positions are being offered and both will enable you to 'make a difference'.

Sales Manager - Asia

Come in, evaluate the opportunities and develop, recommend and then implement your own strategies throughout the Australian/NZ and Asian region, building long-term business relationships with power utilities and manufacturers.

Ref No. 181

Electrical Product Engineer

This role is the 'technical glue' between the market's design requirements and product development, acting as the key point of contact for technical expertise and support to customers.

Ref No. 182

Both positions offer attractive remuneration and will suit power industry savvy electrical engineers who are energetic, keen to make a real impact and who are ready for a new challenge. By contacting us, you will not be disappointed.

Enquiries and applications should be made through our Recruitment Consultants at Hunter Mollard Executive Search and Selection. For further information and to apply visit www.hunter-mollard.com.au and select Job Search. Enquiries to Tom Mollard on +61 3 9662 4822.
