Dynamic Ratings Opens Three Asset Health Centres

FOR IMMEDIATE RELEASE: December 4, 2017

Dynamic Ratings is pleased to announce the grand opening of three asset health centres across the globe: Melbourne – Australia, Milwaukee – United States, and Manchester – United Kingdom.

Beyond 24/7 Condition Based Monitoring

Dynamic Ratings offers responsive asset health solutions for electrical equipment. To compliment the products and field services, Dynamic Ratings has expanded our technical support by providing 24/7 monitoring from three strategically placed asset health centres. Dynamic Ratings' subject matter experts can provide responsive evaluation and diagnosis of any equipment alarm from each of these locations. Contact www.dynamicratings.com for more information.

Dynamic Ratings: Dynamic Ratings (DR) provides responsive asset health solutions for electrical equipment. DR's products, software and services help utilities address the various challenges associated with successfully deploying and managing their Condition Based Monitoring programs. www.dynamicratings.com
